

TECHNICAL DATA SHEET

# OLI-NATURA Wood Soap

Mild soap concentrate for oiled, waxed or soaped wooden surfaces.  
Diluted in lukewarm water, it ensures quick cleaning and moisturising care. The pH-neutral formula is gentle on skin and wood. Can be used pure for stubborn stains.  
Economical and economical to use.

<b>Area of application</b>	<ul style="list-style-type: none"><li>Wood inside</li><li>Private &amp; commercial</li><li>Solid wood parquet &amp; floorboards</li><li>Furniture, stairs</li></ul>
----------------------------	---

<b>Properties</b>	<ul style="list-style-type: none"><li><b>Highly concentrated soap concentrate</b> - pleasant fragrance - extremely economical and economical to use</li><li><b>Gentle wipe cleaning</b> for all oiled, waxed or leached wooden surfaces indoors</li><li><b>Thorough and moisturising</b> - removes dirt &amp; has a moisturising effect</li><li><b>pH-neutral (approx. 7.5 - undiluted)</b> - gentle on skin and wood</li><li><b>High yield</b> Depending on the dosage (5-10 ml per litre of water), 1 litre of concentrate produces <b>up to 200 litres of wiping water</b></li></ul>
-------------------	---

<b>Fulfilled/tested according to</b>	<ul style="list-style-type: none"><li>Giscode GU 40</li></ul>
--------------------------------------	---

<b>Notes</b>	Material, object and ambient temperature +15 to +30 °C. Shake container well before use, as segregation may occur due to the raw material. Remove excess material from the surface, avoid puddles. Never leave parquet and wooden floors damp or even wet for long periods of time. No risk of spontaneous combustion!
--------------	--

<b>Preparation</b>	Dry cleaning is recommended before any maintenance work.
--------------------	--

<b>Processing</b>	<p><b>Remove coarse dirt</b> Before cleaning, remove coarse dirt by sweeping or vacuuming.</p> <p><b>Preparing the product</b> Shake container thoroughly before use.</p> <ul style="list-style-type: none"><li><b>Mix the cleaning solution</b> <b>For small surfaces (e.g. furniture):</b> Add 5-10 ml of OLI-NATURA Wood Soap to 1 litre of lukewarm water.</li></ul>
-------------------	--

- **For large surfaces (e.g. floors):** Mix 50-100 ml OLI-NATURA Wood Soap (depending on the degree of soiling) with 10 litres of lukewarm water.

**Tip:** Use two buckets - one with the soap solution and one with clear water to rinse the cleaning cloth or mop.

#### **Mopping**

Clean the surface with a damp mop or soft cloth. Only a thin film of moisture should remain on the wood. Leave to dry.

#### **Stubborn stains**

Wood soap can be used pure for stubborn stains. After a short exposure time, wipe off with a damp cloth.

#### **Drying**

Do not leave any puddles on the surface. **Do not walk on the floor until it is completely dry**

**Dosage:** 5-10 ml per 1 litre of wiping water

#### **Consumption:**

1 litre of soap concentrate, diluted with water in the specified mixing ratio, is sufficient - depending on the degree of soiling - for **100 to 200 litres of wiping water**
